Various access
Be-Tech G7A3FT has two access solutions, Fingerprint or PIN code for your convenience.

One-touch Fingerprint Verification
One-touch Fingerprint verification technology has been applied to conveniently read a fingerprint in one shot.

Invisible keypad
Keypad numbers can be seen only when you touch the screen with your palm.

Operation status notification
Whenever any operation is made, the LED indicator informs you what is happening through different colors and signs.

Automatic locking
Door lock will be locked automatically after opening door a few seconds. (Manual operation is also available)

Anti-panic exit system
For convenience and in case of emergency, it allows you to open the door by simply turning its handle from inside.

Alarm (Incorrect Fingerprint or PIN code attempt)
Alarm will be on and last for 60 seconds if anyone attempts to open the lock with incorrect Fingerprint or PIN code for 5 times.

Low battery warning signal
A continuous "beep" sound during door access will alert you to replace batteries.

Scramble code
You can enter random numbers prior to the right code when there is a chance of exposing it to others.

Mechanical key override
For emergency, it can also be unlocked with a mechanical key.
