Be-Tech V3A8MT has two access solutions, RF Card key or PIN code for your convenience.

### Invisible keypad
Keypad number can be seen only when you touch the screen with your palm.

### Fake PIN code
You can make an instant PIN code for security.

### Operation status notification
Whenever any operation is made, the LED indicator informs you what is happened through different color and blinking.

### Automatic locking
Door lock will be locked automatically after opening door a few seconds (Manual operation is also available)

### Missing key invalidation
Once you lose your key, it has no validation as long as you re-register rest of your keys.

### Anti-panic exit system
For convenience and in case of emergency, allows you to open the door by simply turning its handle from inside.

### Alarm (Incorrect PIN code attempt)
Alarm will on and last 60 seconds if anyone attempts to open the lock by key in 4 times incorrect PIN code.

### Low battery warning signal
A continuous "beep" sound during door access will alert you to replace batteries.

### Scramble code
You can meaningless number prior to the right code when there is chance of exposing it to others.

### Mechanical key override
For emergency, it can also be unlocked with a mechanical key.
